**Helpful Advice & How to Buy** (pages 218-219)

# Colour Coordination New

We understand that many interior designs can be enhanced with carefully applied colour coordination or contrasts to create a standout feature. Today we have a huge choice of brands and exciting colour palettes and tones to choose from for our walls and woodwork, providing the opportunity to create truly stunning rooms. If you are looking to create a uniquely personal look using colours from either popular or premium paint brands, we can take your chosen colour and create a highly durable powder coat finish that will allow your radiator to blend in with your wall colour, or stand out if you want to make a statement!

*Ancona radiator with matching Pistol TRVs, pipe covers and shrouds colour coordinated to Benjamin Moore paint Aegean Teal (2136-40)*

The first step is to order a colour sample, for which a small charge of £120 inc VAT will apply (this will be deducted from the full order when placed). We will then mix a batch of powder and prepare a sample for you to check and approve. Once you are happy, you can proceed to order your radiators. To achieve your desired colour and allow for the sample and final production, we have an extension on our standard delivery times to allow for the process, this could be up to 6 weeks for the sample, and once the sample has been approved, up to 8 weeks for the completion of your radiator order.

Timescales will be determined by the size and quantity of radiators you require, we will be able to provide a more accurate estimation when we quote for your project.

*Ledbury radiator colour coordinated to Benjamin Moore paint Van Deusen Blue (HC-156)*

Making sure that you get something that reflects the effort you have taken in choosing your colours is important. Once we know the radiators you are interested in and the make, name and code of your chosen colour, we can supply a quote and an estimate of delivery times.

*Oscar radiator with matching Pistol TRVs, pipe covers and shrouds colour Coordinated to Dulux Natural Slate paint*

Because our radiators are finished using a bespoke powder coat application, they will differ from the final wall finish of an emulsion paint. Each manufacturer has a unique formula and the gloss level and finished texture will vary between brands, a powder coat finish will not match these finishes exactly. Our powder coat finish will have a gloss level of circa 20-25%, like an eggshell, many matt emulsions will have gloss levels of around 2 – 6%, so it is important to provide a test sample before we proceed with the complete order, so you can see how it sits next to your wall colour.

*Sitar radiator colour coordinated to Farrow & Ball® paint Citron 74*

*Sitar radiator colour coordinated to Farrow & Ball® paint Citron 74 contrasted with Mid Brunswick Green*

### The process is simple;

- 1) Choose your radiators from our stock white range, we need to know the number and size of radiators that will need painting, so we can calculate the amount of powder we will need. If you would like a size that is not a stock item, additional time will be required to produce your chosen radiator. Timescales will be determined by the size and quantity of radiators you require, we will be able to provide a more accurate estimation when we quote for your project. **Please note that sometimes we will require a physical sample to colour match from.**
- 2) We will provide a full quote for the estimated costs and timescales for producing your radiators in your chosen colour, including the initial £120 Inc VAT charge for a test sample.
- 3) Place and pay for an order for a test sample in your chosen colour (which will be deducted from the final order), providing the make, colour name and any code references. The £120 Inc VAT charge will apply for each sample required.
- 4) If you like the test sample, we will require your written approval before we can proceed with the full order. If the sample is not satisfactory, we can either try again (a second sample charge will apply, we can however only refund the first sample cost off the final order), we can amend your order to a standard colour, or we can cancel the order.
- 5) We will supply a final order summary for your approval before progressing with production.

To achieve your desired colour and allow for the sample and final production, we have an extension on our standard delivery times to allow for the process, this could be up to 6 weeks for the sample, and once the sample has been approved, up to 8 weeks for the completion of your radiator order. Estimated delivery times will be supplied when we provide a quote for the project.

The colour coordination icon indicates which products are available for this service and are shown on the relevant technical pages. Please call us on **01342 302250** or visit **theradiatorcompany.co.uk** for more information.

# Ancona® - Steel Multi Column

Italy, has earned an outstanding worldwide reputation for being at the leading edge of radiator design, style and practical functionality. Produced in our factory in Italy the Ancona® range of Steel Multi Column radiators take the classic look of cast iron and combines it with the flexibility of steel; suitable for all interiors. Multiple column depths, heights and widths provide an extensive choice of sizes and outputs to suit any room or location.

## Stock (pages 10-17)

Our stylish and timeless stock Ancona® Steel Multi Column is held in our UK warehouse for fast delivery

The most popular 2, 3 or 4 column sizes in 5 height options and 3 mounting options are available from stock;

- White RAL 9016 delivered in 48-72 hours
- Bare Metal Lacquer delivered in 48-72 hours.
- Feature Finishes: Copper, Textured Anthracite & Pearl Bronze in up to 3 weeks.
- **New** Colour Coordination service, price and lead time on application see pages 6-7.

We list all possible combinations on pages 130-137 in the technical section.

## Made To Order (pages 18-27)

The perfect solution, made to order in our Italian factory to fit your requirements.

We offer a vast range of sizes of Ancona Multi Column in 2-6 column options; with 3 different mounting options wall-hung, cast feet or welded feet. Added to this we have over 188 RAL colours plus 34 special finishes including Galvanised & Bare Metal Lacquer.

Combine all these choices and you have over 3 million combinations of sizes, colours and mounting options. To help make selection easier please use our **online radiator builder**, a simple way to select the best size, options and heat requirements for your space.

# Ancona® - Finishes & Options

## Ancona® Bare Metal Lacquer (pages 16-17)

This industrial bare metal finish is hand finished so every radiator is unique. Variations in colour, welding and burnishing marks differ from one section to another and add to the idiosyncrasy of each radiator. Once sections are hand burnished to give a smooth surface, a clear gloss lacquer is applied, protecting the bare metal and enhancing their irregular nature and individuality. **We offer a large range of stocked sizes, see pages 136-137.**

Antique Brass

Antique Copper

Satin Nickel

## Ancona® Galvanised (pages 26-27)

We have developed a range of truly unique, stunning and “on trend” finishes; Antique Copper, Antique Brass & Satin Nickel. The finish is created by hand polishing individual sections of Ancona®, and then using a galvanising process (similar to chroming). 5 stages in total are needed to complete the look with a final hand brushing & application of a protective lacquer. The result is distinctive & hardwearing, with each radiator unique & individual. Please note: Galvanised Ancona’s are available with welded feet only. **See pages 144-145 for full range of sizes.**

## Ancona® Bench Seat (pages 28-29)

A practical solution providing both seating and heating, perfect for boot rooms, utility rooms and conservatories. The Ancona bench seat comes supplied with a solid wooden top. **See pages 146-147 for full range of sizes.**

## Ancona® Curved (page 30)

Fitting a curved Ancona into your bay window or around a curved wall will give a truly bespoke finish to a room. All come with welded feet as standard & are available in 188 RAL colours & 30 special finishes. Use our **curved radiator builder online** or download the easy to follow Specification Instructions on our website [theradiatorcompany.co.uk](http://theradiatorcompany.co.uk) .

## Ancona® Electric (page 31)

Our range of fully electric Ancona sizes provide the option to place your radiator in spaces where it is not possible or convenient to connect to the normal heating system. Available in one height (600mm) there are 7 sizes available with 3 sizes now available from stock. These radiators are filled with an oil/glycol mix and are IP24 rated.

**See page 149 for full range of sizes.**

® Ancona is a registered trademark of IRSAP UK Limited

Ancona® stock radiators are incredibly versatile with literally hundreds of possible sizes in 2, 3 or 4 columns from 3-40 sections, in a choice of 3 mounting options (slip on welded feet, cast feet or 2 types of wall brackets) all available from stock.

Please visit our sectional radiator builder online [theradiatorcompany.co.uk](http://theradiatorcompany.co.uk).

# Contemporary Designer - Stock & Made to Order

Our contemporary designer range contains models that can be used throughout the home. Developed to reflect the latest trends in design these radiators will complement any interior scheme. The wide selection of sizes, formats and colour options allows you to select the perfect radiator to suit your heat output requirements, space and interior.

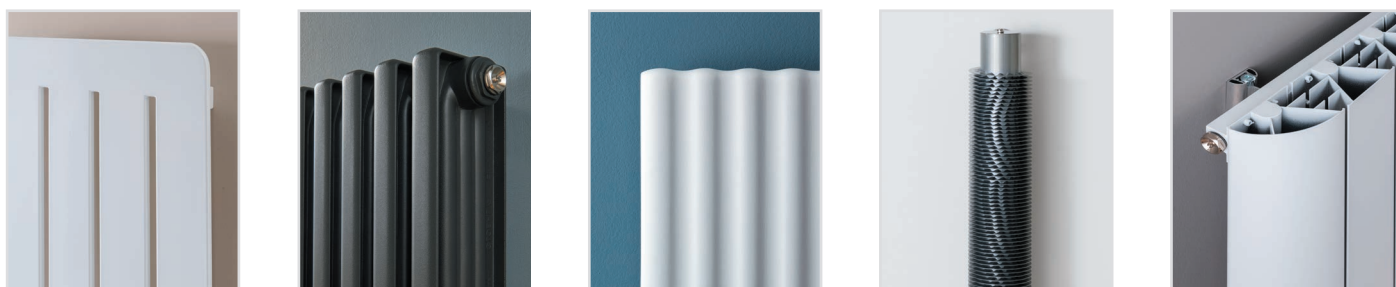

Knowing the heat output required (BTU/Watts) to heat your room is key when choosing your radiator. For help on calculating this and selecting the correct size of your chosen radiator please visit our website [theradiatorcompany.co.uk](http://theradiatorcompany.co.uk).

**All Stocked Designer Radiators are now delivered in 48-72 hours.**

## Design

*Prices from £315.00*

As Italy's leading manufacturer with over 50 years experience of innovative design, we offer the widest choice of stylish high quality radiators with guarantees ranging from 10 to 20 years.

## Choice

### Aluminium

We have 4 exciting designer aluminium ranges, the Iseo, Niro, Sebino and Canto. All with the efficient features of aluminium and available in a range of sizes and colours for quick delivery. Plus we have the Odolo taking it's inspiration from traditional designs, the soft curves deliver a classic style.

Our Low Water Content radiators are designed for improved efficiency which contribute to reduced running costs while delivering great output.

For Low Water Content radiators look out for this symbol (shown left) in the technical section.

### Radiant Panels

Our Ceramica radiators are produced from what would have historically been a waste product of the production of marble worktops and tiles. This marble powder can now be fully recycled, bound together with water and eco-friendly adhesive agents and is compressed to form these high-quality products.

Made in Italy using a ground-breaking, patented technology, the use of low temperatures in the production process uses less energy and therefore has lower CO2 emissions, meaning it has a very low environmental impact. These radiators can be fully recycled, and have been designed to complement systems with renewable energy sources.

Unlike traditional radiators, the Ceramica range produces radiant heat. Compared to standard convection, radiant heat means less disturbance and distribution of dust particles, and an even and direct transfer of heat.

# Contemporary Designer - Stock & Made to Order

## Choice

### Mild Steel and Stainless Steel

There is an extensive choice of vertical, horizontal, single & double formats, as well as a variety of tube designs so you can have the right combination of design and heat output. In a range of material types such as mild and stainless steel, our designer radiators complement all types of interiors.

## Service

All our designer models with stock sizes are now available for delivery in 48-72 hours. Every stock size is listed in bold in the price tables. Made to order radiators available in 4-9 weeks.

Use our **online BTU (heat output) calculator** to get a guide of your room requirements which you can then check with your installer. Once you know your outputs use our **online radiator builder** to select the best solution for your room. It will take you through the process quickly and easily and allows you to save your ideas to your own Wish List. Go to our website [theradiatorcompany.co.uk](http://theradiatorcompany.co.uk)

### Painted Valves

You have the option to fully coordinate your designer radiator colour with your valves & pipe covers to create a unique & individual statement. *Note: valves & pipe covers must be ordered at the same time as the radiator.* See page 119 for full details.

Pistol TRV in Azurite with matching Pipe Covers & Shrouds

### Accessories

Make the most of your radiator by adding a towel bar or hanging peg. Great for kitchens, bathrooms and hallways these accessories can bring extra functionality to any radiator. See page 126 for full details.

**SAVE £45** WHEN YOU BUY OUR IDEAL TRV KIT WITH ANY DESIGNER ORDER\* QUOTE **PROMOVI** AT TIME OF ORDER (White or Chrome only, see product pages at the back of the brochure for full details)

\*Saving based on the value of individual items when bought separately.

Order any of our selected valves & matching pipe covers at the same time as your radiator; PROMOVIW (white), PROMOVIC (chrome).

## Finishes

**New Colour Coordination Service** for selected stock ranges, products that are available for this service will have the Colour Coordination icon (shown left) on their individual technical pages. Please see pages 6-7 for full details and how to order.

# Sectional Aluminium - Stock

Smooth, clean lines and slim profiles make these ranges perfect for both new homes and as replacement radiators. Their practical functionality makes them suitable for living rooms, bedrooms, or studies and our variety of accessories can also enhance their use in kitchens, bathrooms, and hallways.

Use our online radiator builder to help select the best configuration for your room; [theradiatorcompany.co.uk](http://theradiatorcompany.co.uk).

Sectional Aluminium is available in;

- **White RAL 9010 in 48-72 hours**
- **23 RAL and 30 special finishes available in up to 3 weeks.**

## Design

Prices from **£250.00**

Energy Efficient & Made from Recycled Materials

Low water content

- An aluminium radiator will heat up in just over half the time of a steel radiator and use 50% less water, saving money by using less fuel. This makes aluminium among the **most energy-efficient radiators available**.
- As aluminium radiators are a third lighter than steel radiators, it means they are extremely light and easy to install on any type of wall.
- Aluminium radiators are excellent heat conductors; our products have high thermal efficiency and contain a lower amount of water, therefore heating up faster than those produced with other materials. They are therefore easier to control & cost much less to run.

With modern building methods and regulations requiring more insulation and higher U values for windows, having a more efficient heating system that can react quickly to changes in temperature and that can produce enough heat from smaller heat emitters means a more comfortable living environment and cheaper utility bills.

All our Sectional Aluminium radiators are made in Italy and are available in 4 different profiles.

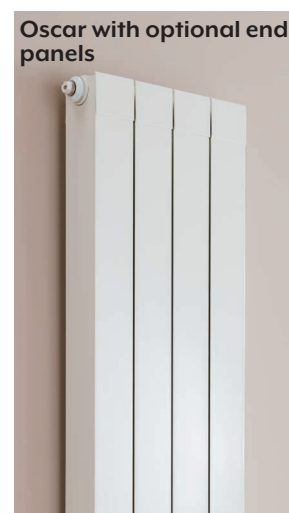

Vox

Mix

Vip with optional end panels

Oscar with optional end panels

## Choice

Our Sectional Aluminium ranges boast incredible versatility with hundreds of possible size options all available from stock. Meet your size requirements with 3 to 20 sections, finished in a choice of 23 RAL colours (shown on page 197) and 30 special finishes (shown right).

See our online radiator builder for more information; [theradiatorcompany.co.uk](http://theradiatorcompany.co.uk).

# Sectional Aluminium - Stock

## Service

White models available from stock in 48-72 hours delivery

**23 RAL colours & 30 special finishes available in up to 3 weeks** (Please allow an extra 10 working days for orders of more than 10 radiators).

Use our **online BTU (heat output) calculator** to get a guide of your room requirements which you can then check with your installer. Once you know your outputs use our **online radiator builder** to select the best solution for your room. It will take you through the process quickly and easily and allows you to save your ideas to your own Wish List. Go to our website **theradiatorcompany.co.uk**

See our Assembled options for our most popular sizes, other sizes can be made to your specification using the sectional data.

Please note; delivery lead times on coloured aluminium start from when we have receipt of your chosen RAL colour number and description in writing. Please ensure the selected RAL colour number and name is included on your order to avoid potential delays.

### Painted Valves

You now have the option to fully coordinate your aluminium radiator colour with your valves and pipe covers to create a unique and individual statement. Image right is a Mix in Azurite with matching Pistol TRV, pipe covers & shrouds. **Note: valves & pipe covers must be ordered at the same time as the radiator.** See page 119 for full details.

### Aluminium Accessories

Aluminium accessories include hanging pegs, towel bars and for the Oscar and Vip, end panels to create a clean side profile, see page 177 for more details.

**SAVE £45** WHEN YOU BUY OUR **IDEAL TRV KIT** WITH ANY ALUMINIUM ORDER\* QUOTE **PROMOVI** AT TIME OF ORDER (White or Chrome only, see product pages in the back of the brochure for full details)

\*Saving based on the value of individual items when bought separately. Order any of our selected valves & matching pipe covers at the same time as your radiator; PROMOVIW (white), PROMOVIC (chrome).

## Finishes

White RAL 9010 delivered in 48-72 hours

### New Colour Coordinating Service

Available for all sectional aluminium, see product pages 6-7 for full details including process & lead times.

### 23 RAL Colours

All our Sectional Aluminium radiators are available in a selection of the 23 most popular colours from the RAL range (shades of White, Cream, Grey, Brown, Red & Black), on page 197. Available in up to 3 weeks.

Please call 01342 302250 for a RAL chart.

### Special Finish Options

Our aluminium ranges are also available in 30 exclusive special finishes (some of which are shown below), combining the efficiency of aluminium with a truly stunning finish. Available in up to 3 weeks. **Please call 01342 302250 for a Special Finish chart.**

Mottled Silver Mottled Copper Carbon Sienna Brown Sunstone Ancient Bronze Grey Sparkle Gun Metal Grey Azurite Black Sparkle Textured Black Matt

For orders of more than 10 radiators in colour or special finishes please allow an extra 10 working days for delivery.

# Traditional Cast Iron - Stock & Made to Order

The epitome of traditional heating, cast iron radiators are a must for any period restoration; suitable for living rooms, bedrooms, kitchens, hallways and dining rooms. Our choice of six classic designs offer the clean simplicity of “column” or the “decorative classic”. These radiators will be a perfect match for any existing radiators and being new, they come with a ten year guarantee.

## Design

Prices from £162.00

As a material, cast iron has its own unique properties; these radiators will hold their heat for a long time, compared to a similar steel model, although they are slower to heat up and therefore less responsive to sudden changes in temperature.

### Column

Probably the most well-known form of cast iron radiators, the original imported column models bring a real charm and character to any period property.

Ledbury

Aston

Telford

### Decorative Classic

The intricate and detailed designs of the Trieste and Bohemia with their tasteful scrollwork, bring a touch of splendour to your home. Our Linton range reflects the style of the 1920s, with smooth clean lines and a choice of exclusive galvanised and painted finishes.

Bohemia

Linton

Trieste

## Choice

### Sectional

Our sectional cast iron range is incredibly versatile with literally hundreds of possible sizes from a wide range of column depths & heights finished to your size. Use our **online radiator builder** to select the best solution for your room on our website [theradiatorcompany.co.uk](http://theradiatorcompany.co.uk).

### Mounting Options

Cast iron radiators are very heavy and therefore best mounted with floor supports. All of our ranges are available with Footed Ends as standard. The Telford & Ledbury have selected sizes without footed ends which can be sold with optional Cast Feet.

Footed End Sections

Cast Foot

### Solid Brass Wall Ties & Airvents New

Available to buy with all of our cast iron radiators, see page 189 for details.

## Service

All stocked cast iron lines are listed in bold in the technical section, primer finish delivered in 5-7 working days.

Use our **online radiator builder** to select the best solution for your room. It will take you through the process quickly and easily and allows you to save your ideas to your own Wish List. Go to our website [theradiatorcompany.co.uk](http://theradiatorcompany.co.uk)

Our range of valves include the classically styled Vintage TRV, Vintage XL TRV as well as the Black & Brass TRVs.

**SAVE £45**

WHEN YOU BUY OUR **VINTAGE TRV KIT** WITH ANY CAST IRON ORDER\* QUOTE **PROMOV2** AT TIME OF ORDER  
(For all Vintage TRV finishes, please see product pages in the back of the brochure for full details)

\*Saving based on the value of individual items when bought separately. Order any of our selected valves & matching pipe covers at the same time as your radiator.

# Cast Iron Finishes

Our range of Cast Iron radiators are available in a wide choice of finishes. We offer a choice of colour ranges and levels of finishing for you to select from. Please note; that as a result of the casting process, cast iron radiators have a rough surface finish with small imperfections which will show after the painting process.

## RAL Colours

A range of 24 of the most popular colours from the RAL range. We use a robust, polyester powder coat paint, which is applied by our specialist UK based painters, to achieve a long-lasting, durable finish. Visit page 197 for full list of RAL colours and please call **01342 302250** for a RAL chart.

*Please Note; delivery lead times on coloured cast iron start from when we have receipt of your chosen RAL colour number / special finish in writing; please ensure the selected RAL colour number / special finish and name is included on your order.*

## Primer Finish

Our standard finish is primer, which requires finishing to prevent rust from forming. If carried out by hand this can be a long and difficult process as cast iron is very heavy and the entire surface must be covered with an appropriate undercoat and topcoats for full protection.

Mottled Bronze

Gun Metal Grey

Textured Stone

Mottled Copper

## Special Finishes

We can also overpaint your Ledbury, Trieste or Telford cast iron radiator in any of the special finishes in our Special finish chart including metallics, mottled & textured effects (excludes Mottled White Gold). For a Special Finish chart please call our Customer Service team on **01342 302250**.

## Colour Coordination Service

In addition to the finishes listed above and below, we can also arrange for selected stocked models to be painted to reflect the colours of the most popular and premium paint brands. We can take your chosen colour and create a highly durable powder coat finish that will allow your radiator to blend in with your wall colour (or stand out if you want to make a statement!). Available for the Ledbury, Telford, and Trieste cast iron ranges only, please turn to pages 6-7 for full details.

Aston Polished

## Polished

Our Aston and Linton radiators are available in a beautiful high lustre, polished finish. Created by hand, an initial black paint is used to protect hidden, hard to access areas of the radiator and to highlight the visible polished areas. The front, sides and tops of the sections are polished whilst the rear and more difficult to access areas between the sections remain black. A series of burnishing & polishing processes produces the final stunning results.

## Linton / Bohemia Special & Galvanised Finishes

The Linton and Bohemia cast iron models are available in our 24 RAL colours, 4 special finishes exclusive to the range and a galvanised copper finish.

We can also Burnish both models and the Linton can be given a high lustre Polish (please see page shown 192 for the Linton & 195 for the Bohemia).

Please note, due to the printing process, these colours may not be representative of the true finished colour.

# Towel Rails - Stock and Made to Order

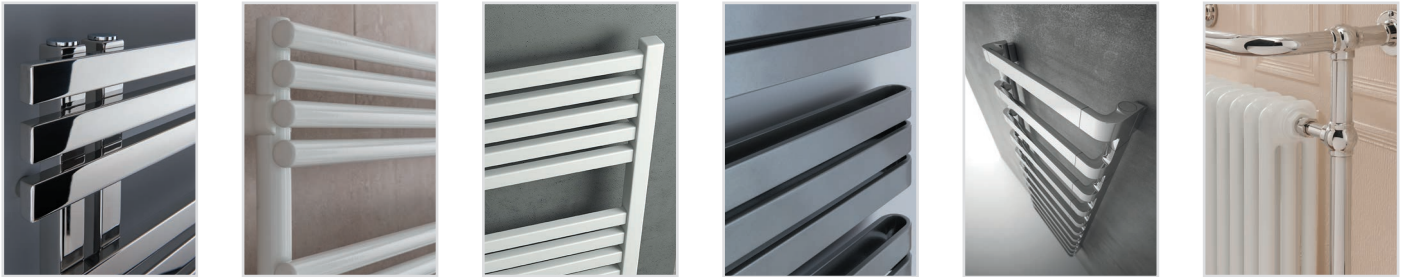

With space often at a premium, a towel rail functions as both a heat source and as a towel warmer; perfect for bathrooms, kitchens and cloakrooms.

Look out for our stocked Towel Rails delivered in 48-72 hours.

## Design

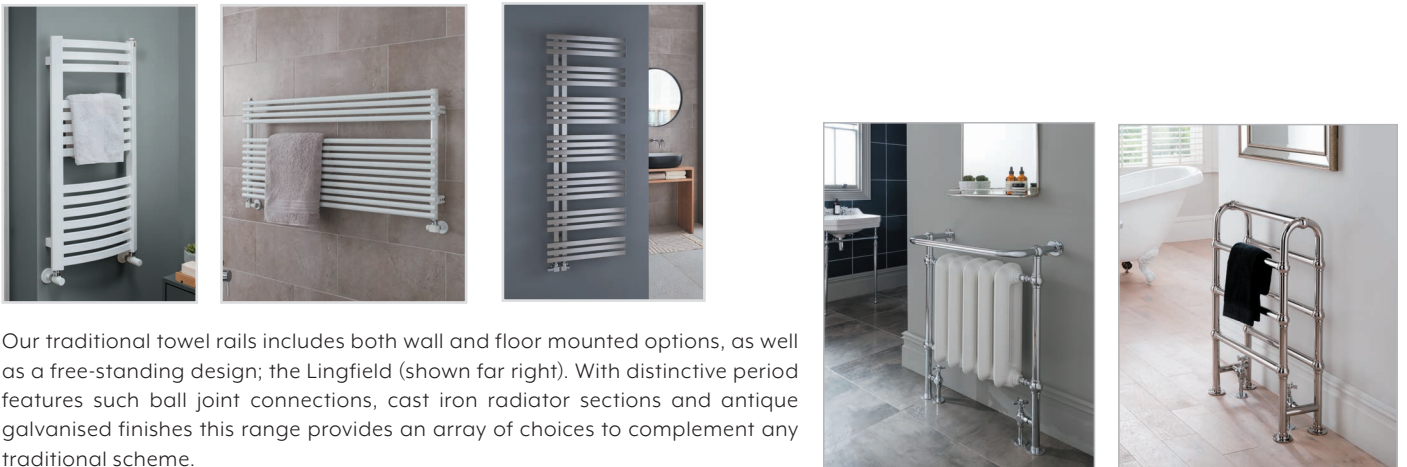

Prices from £141.00

As Italy's leading manufacturer with over 50 years experience, we offer the widest choice of stylish high-quality towel rails with guarantees ranging from 10 to 20 years.

## Choice

An extensive choice of styles, from standard vertical formats to horizontal and side loading towel rails. We offer a wide variety of tube styles, including round, flat, oval, and rectangular in a range of materials; mild steel, stainless steel, and brass for the more traditional style.

Our traditional towel rails includes both wall and floor mounted options, as well as a free-standing design; the Lingfield (shown far right). With distinctive period features such as ball joint connections, cast iron radiator sections and antique galvanised finishes this range provides an array of choices to complement any traditional scheme.

## Service

Look out for our Towel Rails which now have stock lines available for delivery in 48-72 hours; all stock lines are shown in bold in a separate 'stock' table in the technical section.

### Painted Valves

You have the option to fully coordinate your towel rail colour with your valves and pipe covers to create a unique and individual statement. Picture right shows a Lupin ladder rail in RAL 7016 with matching Cylinder valves and pipe covers and shrouds. See page 119 for full details.

**SAVE £45** WHEN YOU BUY OUR **CYLINDER VALVE KIT** WITH ANY TOWEL RAIL ORDER\*, PLEASE QUOTE **PROMOV3** AT TIME OF ORDER (White or Chrome only, see product pages in the back of the brochure for full details)

\*Saving based on the value of individual items when bought separately.  
Order any of our selected valves & matching pipe covers at the same time as your radiator; PROMOV3W (white), PROMOV3C (chrome).

# Towel Rails - Stock and Made to Order

## Electric and Dual Fuel Towel Rails

### Electric

Fully electric self-contained units that are powered by mains electricity, they can be supplied with a variety of elements, some that have complete temperature and timing options built-in, some that are basic on-off options that can be controlled by an additional control panel. These standalone towel rails allow you to install a towel rail without the need for any new pipework and can be used independently of your heating system.

Purple 'electric' symbol denotes which towel rails have fully electric models.

### Dual Fuel

Most towel rails are installed as part of a standard central heating system, but this means they will be cold when the heating is turned off in summer. With a dual fuel option, you can have the best of both worlds. Using a special valve connection, you can add an electric element to your towel rail that allows you to use your towel rail and warm your towels in the summer without having to turn on your heating.

Towel rails that can be converted will have this blue dual fuel symbol on their respective pages

Please turn to pages 116-117 for more detailed information and prices.

## Finishes

Popular stock sizes in White RAL 9016 or Chrome are available for delivery in 48-72 hours

### 188 RAL Colours

Match your bathroom, kitchen, or cloakroom style by selecting from a full rainbow of 188 RAL colours. Use either contrasting colours to create a bold statement or sympathetic colours so your Towel Rail blends into your wall. For a RAL chart please call **01342 302250**.

### 30 Special Finishes

A choice of metallics, mottled and textured effects. For a Special Finish chart please call our Customer Service team on **01342 302250**.

For orders of more than 10 radiators in colour or special finishes please allow an extra 10 working days for delivery.

# Heating Elements & Dual Fuel Kits

All available from stock and delivered in 48-72 hours.

Heating elements are used as a heat source in electric radiators, towel rails and dual fuel towel rails. You can easily install your radiator or towel rail as dual fuel by connecting it to your central heating system along with a heating element, meaning you are able to run your product as electric in the summer months.

All towel rails that can be converted to dual fuel will have a dual fuel symbol in the technical section

Follow these simple stages to select the correct Dual Fuel Kit for your towel rail.

## 1. Valve Configurations

All radiators will require a valve, select either a T-piece or a Dual Fuel valve to suit your installation.

## 2. Types of Element

There are four types of electric elements to choose from (see below and opposite).

## 3. How to choose your Element

It is important to select the correct size element for your towel rail. Too small and it will not provide enough heat, too large and it can burn out. The chart above right that shows the towel rail output in watts and the corresponding recommended size of element.

Towel Rail output range in Watts	Electric Elements
165 - 255	200w
260 - 375	300w
380 - 530	400w
535 - 735	600w
740 - 920	800w
920 - 1100	1000w

## Round Bluetooth Element Bluetooth

- 5 heat settings from 30°C to 60°C regulating the internal radiator temperature, denoted by 5 LED's
- Full operational control of the element on smartphone / tablet via Bluetooth (with "Terma BLUE-Line" App: iOS / Android)
- Provides a choice of internal temperature (30°C to 60°C) or ambient room temperature (15°C to 30°C) regulation.
- 7 day timer. 2 hour drying function
- Lot20 EcoDesign Directive compliant\*
- Guarantee - 2 years
- Delivered in 48-72 hours

Description	Model	Output	IP Rating	Black Ex VAT	Black Inc VAT	Silver Ex VAT	Silver Inc VAT
Round Bluetooth Element	AARBELE	120, 200, 300, 400, 600, 800, 1000 & 1200 watts	IPx5	£166.00	£199.20	£166.00	£199.20

\*Lot 20 EcoDesign Directive Compliancy - The Round & Square Bluetooth Elements (or any element fitted with the Wi-Fi Timer device) are all compliant with Lot 20; whereby an electric room radiator (does not apply to electric towel rails) has to have a weekly timer and adaptive start control/out of home control.

## Low Temperature 43D Element

- Element pre-programmed to run at an internal temperature of 43°C, for Low Surface Temperature (LST) style operation\*
- When specifying this element, to help ensure correct surface temperature, reduce the output of your radiator (as water) by 40% (i.e for a 200w towel rail install the 120w element)
- No Timer. 2 hour drying function
- Frost & overheating protection
- IPx5. Class I.
- Guarantee - 2 years
- Delivered in 48-72 hours

Delivered in 48-72 hours

# Valves

Every Radiator needs a pair of valves to operate. A good quality valve not only benefits from efficient performance they also add to the appearance of your finished radiator. All our valves have a 5 year warranty and can be delivered within 48-72 hours.

## Wheelhead and Lockshield;

Every Radiator requires a pair of valves that work together, the Wheelhead adjusts the flow of water into the radiator and the Lockshield balances the flow of water around the whole system, ensuring each radiator heats up at the same rate, these should be adjusted by your installer.

## TRV or Manual?

Thermostatic Radiator Valves (TRVs) monitor the room temperature. They usually have between 4 to 6 levels and the valve opens and closes automatically to reach and maintain the desired level. TRVs can help maximise the efficiency of your system reducing energy consumption and are now a requirement as part of building regulations relating to new builds and refurbishments. Manual valves are adjusted by hand; they allow a constant flow of water through your radiator regardless of the room temperature and radiators will only turn off when the main thermostat reaches its set point or the programmer turns the heating off.

## Angled, Corner or Straight?

## Pipework and Pipe centres;

All our valves have 15mm connections as standard unless otherwise stated; if you need different connections please specify when ordering your valves. The use of plastic pipe has become more popular; however, our valves are not designed to operate with plastic pipes. Also, if chrome pipework is used most valves will not grip it securely because chrome is a harder surface than copper or iron and leaks can occur. Special fittings are required to enable valves to grip chrome pipe work and these must be specified at time of order. The position of the pipework for your radiator will be affected by the valves you select. All angled valves have a dimension to allow for adjusting pipe work. You should make adequate allowances for manufacturing tolerances in pipe centres. For straight valves, a minimum of 150mm should be allowed from the base of the radiator for ease of installation.

**Please note: We will always supply angled valves as standard, if you require straight please specify at time of order. We endeavour to ensure all pipe centres are correct, however manufacturing tolerances must be considered; we strongly recommend that pipe work is not altered or adjusted until the new radiator or towel rail is fitted. The Radiator Company will not accept any responsibility for claims resulting from incorrect pipe centres.**

# Valve Kit Offer

## SAVE MONEY

WHEN YOU BUY OUR SELECTED VALVE KIT'S WITH ANY RADIATOR ORDER\*  
(see product pages in the back of the brochure for full details)

(specifying 'W' for white or 'C' chrome)

\*Saving based on the value of individual items when bought separately. Order any of our selected valves & matching pipe covers at the same time as your radiator quoting the relevant promo code.

# Painted Valves

Create a unique and individual statement with your valves and pipe covers. The valves pictured below can be painted in the same colour as your radiator from one of our 23 RAL colours shown on page 197, 30 Special Finishes and "Feature Finishes" from the Ancona® range.

Pictured right is a Lupin Towel Rail in RAL 7016 with matching painted Cylinder valves and pipe covers and shrouds.

Painted valves are delivered in up to 3 weeks.

*Note: Painted valves & pipe covers can only be ordered in the same colour and at the same time you order your painted radiator and can not be purchased separately.*

To provide complete coordination, simply follow these three easy steps:

## 1. Select your valve;

Pistol TRV (shown in Azurite)

Description	Model	Colour Ex VAT	Colour Inc VAT
DELIVERY TIMES		UP TO 3 WEEKS	
Angled or Straight	VVPISLTRV	£307.00	£368.40

Cylinder (shown in RAL 7016)

Description	Model	Colour Ex VAT	Colour Inc VAT
DELIVERY TIMES		UP TO 3 WEEKS	
Angled or Straight	VVCYL	£213.00	£255.60

Crosshead (shown in Mottled Copper)

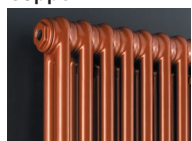

Description	Model	Colour Ex VAT	Colour Inc VAT
DELIVERY TIMES		UP TO 3 WEEKS	
Angled or Straight	VVCRO	£302.00	£362.40

## 2. Select your colour from a choice of 23 RAL colours and 30 special finishes

There are 23 RAL colours and 30 special finishes to choose from including metallics, mottled and textured effects. For a RAL or Special Finish chart please call our Customer Service team on 01342 302250.

Copper

Textured Anthracite

Pearl Bronze

Available when purchasing Ancona® Feature Finishes only (see pages 12-13 & 130-135)  
Please call **01342 302250** for sample swatches

## 3. Select matching pipe covers and shrouds.

We can also match the colour of the pipe covers and pipe shrouds for your radiators or towel rails in any one of the colour options shown above. Each pair of painted pipe covers comes with matching shrouds.

# Pipe Covers & Shrouds

Available in 7 set colours; White, Chrome, Antique Copper, Nickel, Polished Brass, Antique Brass & Black.

Pipe covers and shrouds are the perfect method of creating a neat finish for your radiators. They remove the need to paint copper pipes and hide unsightly holes drilled in the floor or wall for the feed pipe.

Available in 7 standard finishes, they can be delivered in 48-72 hours.

Each set is supplied with two 160mm covers and two shrouds.

Description	Model	Chrome Ex VAT	Chrome Inc VAT	Polished Brass Ex VAT	Polished Brass Inc VAT	White Ex VAT	White Inc VAT	Nickel Ex VAT	Nickel Inc VAT	Antique Copper Ex VAT	Antique Copper Inc VAT	Antique Brass Ex VAT	Antique Brass Inc VAT	Black Ex VAT	Black Inc VAT

\*Saving based on the value of individual items when bought separately. Order any of our selected valves and matching pipe covers at the same time as your radiator.

## Online Radiator Builder

Use our **NEW ONLINE RADIATOR BUILDER** to help you select the best solution for your room. It will take you through the process quickly and easily and allows you to save your ideas to your own Wish List. To select the right size of radiator for your room you need to calculate the BTU (heat output) you require to heat your room, you can use our online calculator to work this out.

Go to our new website [theradiatorcompany.co.uk](http://theradiatorcompany.co.uk)

Edit Build	
<b>Build Summary</b>	
Radiator Columns	3
Height & Length	H 500mm x L 1016mm
Color	Standard White
Mounting Options	Welded Feet
Valve	Ideal TRV Angled Valve White
Lead Time	48-72 hours
BTU value of this selection is: ⓘ	
<b>BTU:3828</b>	
<b>Watts:1122</b>	
Not sure? <a href="#">Check BTU</a>	
Total price:	<a href="#">Add to Basket</a> <a href="#">Add to Wishlist</a>

- 1 Calculate the heat output you need for your room, using our **online BTU (Heat Output) Calculator** or check with your installer, remember you may need more than one radiator to heat your room.
- 2 Use the tables on pages 130-137 to find the best size to suit your space and heat output you need; if you cannot get the right size and output combination from a 2 column radiator try an alternative height or column (depth) option.
- 3 Choose the style of mounting option you want; for Ancona stock white & Feature Finishes standard wall brackets are included in the radiator price, for Bare Metal Lacquer Ancona stock universal wall brackets only are included in the price
- 4 If selecting cast feet or slip on welded feet there is an additional cost, see right for cast feet and slip on welded feet kits and page 137 for bare metal lacquer slip on welded feet pricing tables.

If you need an alternative size, there are thousands of other sizes we can make to order from the full Ancona range which can be found on pages 140-145

# Ancona® Stock White & Feature Finishes Mounting Options

**Mounting Options for Ancona Stock in White & Feature Finishes, (Bare Metal Lacquer mounting options can be found on page 137)**

Once you have chosen your radiator size simply choose your preferred mounting option; standard wall brackets are included in the radiator price. Cast feet and slip on welded feet are an additional cost, see pricing tables below.

We will supply the correct number of brackets and wall ties with each order; prices for extra brackets / feet and wall ties are available on request, please call **01342 302250**.

Note: Ancona's over 40 sections will incur a £35 joining charge, please see bottom of this page for more information

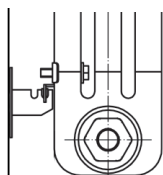

Please specify your preferred mounting option at time of order (remember cast feet and slip on welded feet are not included in the radiator price)

Note: Ancona's must be a minimum of 100mm from the floor for all mounting options

## Wall mounting options included in radiator price

### Standard wall brackets

Supplied as standard with every Ancona order unless an alternative is specified.

Pipe centres from wall:  
 2 column = 64mm - 74mm  
 3 column = 82mm - 92mm  
 4 column = 102mm - 112mm

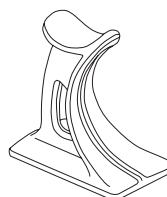

### Wall ties

adjustable from 32mm to 42mm

## Nylon Spanner

The perfect tool for tightening Ancona Bushes and air vents. An exact fit, this robust nylon spanner reduces the risk of damaging your radiator with inappropriate metal tools.

Description	Model	Price Ex VAT	Price Ex VAT
DELIVERY TIMES		48-72 HOURS	
Nylon Spanner	MCSPANNER	£10.00	£12.00

## Helpful notes & advice;

Please call us on **01342 302250** if you need any further information or help with specifying your Ancona.

Due to transport and handling restrictions, Stock Ancona's are supplied pre-assembled up to a maximum of 40 sections. For radiators outside these parameters there is an additional joining charge, please consult Customer Services to discuss alternative requirements. All Ancona's come supplied as a finished radiator with ½" B.O.E. (Bottom Opposite End) connections as standard.

**A nominal £5 charge for postage and packing will be applied to any orders under £50 in value**

Widths include measurement for bushes.

Please note due to manufacturing tolerances widths shown may vary by +/- 2mm.

## Feature Finishes

### Copper

### Textured Anthracite

### Pearl Bronze

Please call **01342 302250** for sample swatches

## Mounting options for stock sizes

Once you have chosen your radiator size, simply choose your preferred mounting option; standard wall brackets are included in the radiator price.

## Floor mounting options

Cast feet and slip on welded feet are an additional cost, see pricing tables below.

We will supply the correct number of brackets and wall ties with each order; prices for extra brackets / feet and wall ties are available on request, please call 01342 302250.

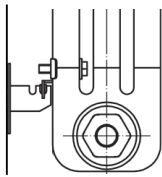

Ancona's must be a minimum of 100mm from the floor for all mounting options

Note: Ancona's over 40 sections will incur a £35 joining charge, please see bottom of page 129 for more information.

## Wall mounting options included in radiator price

### Standard wall brackets

These will always be supplied with every Ancona order unless an alternative is specified at time of order

Pipe centres from wall:

2 column = 64mm - 74mm

3 column = 82mm - 92mm

4 column = 102mm - 112mm

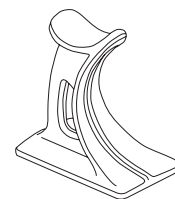

### Wall ties

adjustable from 32 to 42mm

### Feature Finishes

Copper; A bright finish with red and gold tones. Copper is a very popular finish.

Pearl Bronze; A deep lustrous finish, the combination of darker and lighter tones creates a patina effect and an aged look.

Textured Anthracite; this earthy near black/anthracite finish pairs well with many colour schemes, providing a sophisticated tone and nuance.

Please call **01342 302250** for sample swatches

### Mounting options for stock sizes

Once you have chosen your radiator size simply choose your preferred mounting option; standard wall brackets are included in the radiator price see pages 131 for technical drawings and pipe centres.

### Floor mounting options

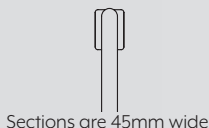

Optional Cast feet & slip on welded feet are an additional cost, see pricing tables & technical drawings on pages 131/ 135.

# Ancona® Bare Metal Lacquer pages 16-17

High quality Italian design & manufacture.  
Steel multi column (2, 3 and 4 column options)  
45mm sections.  
CE/UKCA approved & certified to BS EN442.

Bare Metal Lacquer

**Bare Metal Lacquer: 48-72 Hours**

All prices include universal wall brackets (optional slip on feet shown page 137).  
The radiators widths include bushes.  
Pipe centres left to right = width + valves.

**SAVE £45** WHEN YOU BUY OUR **VINTAGE TRV KIT** WITH ANY ANCONA® ORDER\*  
QUOTING **PROMOV2** AT TIME OF ORDER

For all Vintage TRV finishes

This finish highlights the raw basic steel product showcasing the manufacturing marks created by the processes of welding and sanding to deliver an industrial look. Each radiator will be unique, with the random position of the weld lines on the column tubes and the level of the final sanding. The clear lacquer allows these characteristics to be the hero and maintains the natural steel finish. Please see page 137 (right) for examples of weld lines and sanding marking.

Each radiator will be unique, with the random position of the weld lines on the column tubes and the level of the final sanding.

The clear lacquer allows these characteristics to be the hero and maintains the natural steel finish.

Black weld lines

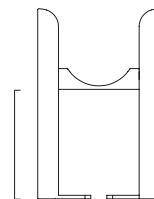

Sanding marking

# Ancona® Made to Order shown on pages 18-27

High quality Italian design & manufacture.  
Steel multi column 45mm sections, 2-6 column options  
CE/UKCA approved & certified to BS EN442.

White RAL 9016 as standard, 188 RAL colours and 34 Special Finishes  
Please call **01342 302250** for a RAL or Special Finish chart

Made to Order: Up to 4 weeks White & Colours  
Up to 6 weeks Bare Metal Lacquer,  
Up to 10 weeks Galvanised

**SAVE** WHEN YOU BUY OUR **VINTAGE TRV KIT** WITH ANY ANCONA® ORDER\*  
**£45** QUOTING **PROMOV2** AT TIME OF ORDER

For all Vintage TRV finishes

Create a radiator that matches your exact requirements with thousands of sizes, plus a choice of 188 RAL colours and 34 special finishes available, including bare metal lacquer and galvanised finishes.

## Choose your radiator using our online radiator builder

Once you know your outputs use our online radiator builder to select the best solution for your room. It will take you through the process quickly and easily and allows you to save your ideas to your own Wish List. Go to our **NEW** website [theradiatorcompany.co.uk](http://theradiatorcompany.co.uk)

It is vital to know the correct heat output you need to keep your room warm, use our online BTU (heat output) calculator to get a guide to your requirements which you can then check with your installer.

Build Summary	
Radiator Columns	4
Height & Length	H 600mm x L 971mm
Colour	RAL8024-Beige Brown
Mounting Options	Cast Feet (+100mm to the Height)
Valve	Vintage XL TRV Angled Valves Antique Copper
Lead Time	4 weeks
BTU value of this selection is:	
BTU:	5670
Watts:	1659
Last checked BTU measurement:	
BTU:	6375 - 7650
WATTS:	1875 - 2250
Not sure? <a href="#">Check BTU</a>	
Total price:	<a href="#">Add to Basket</a> <a href="#">Add to Wish List</a>

Once you know your outputs you can use the brochure to specify your radiator by following these steps (or call our Customer Services team on 01342 302250 who will help you size your radiator).

- Note the space you have in mind for the radiator(s) you need; vertical or horizontal, length, height & depth
- Select a column option and height that fits your space; Calculate the number of sections you need by dividing the required BTU (Watt) output with the output per section; e.g 4142 BTUs divided by 205 = 20 sections, based on 3 column, 600mm high sections (always round up to the next whole number of sections).
- If the use of this section size does not work in the available space, try a different column option or if possible a different height.
- Once you have calculated the best number and size of sections, select the best mounting option. Wall hung options (standard wall brackets) are included in your radiator price. Cast feet or welded feet are an additional cost, see kit prices on page 143. Choose your colour from over 200 colours and special finishes; white RAL 9016 or 9010 are our standard finishes.
- Work out the price of your radiator; e.g 3 column 600mm high, white, 20 sections x £33.19 = £663.80 + welded feet kit price £124.80 = £788.60 (inc VAT).
- Place your order with your local Merchant using the Sectional Model Code x No. of Sections needed, noting the Mounting Option and the name and number of the colour you have chosen; e.g ANCO360W x 20 sections, RAL 9016 Traffic white, with welded feet.
- If you have chosen a colour use the colour reference 'R' instead of 'W' and list the colour number and name.

All prices and outputs are given per section in the tables on pages 140-141. Price per section includes plugs, bushes and diverter. Mounting options must be selected separately, these will include the air vent and appropriate number of wall ties.

\*Saving based on the value of individual items when bought separately. Order any of our selected valves and matching pipe covers at the same time as your radiator.

# Ancona® Made to Order - Colours & Special Finishes

The Ancona® made to order range is available in White RAL 9016 as standard (as an alternative the RAL colour 9010 Pure White can be specified at the standard white price). They can also be ordered in one of the 188 RAL colours or any of the non galvanised special finishes including Gun Metal Grey, Textured White and Ivory, Mottled, Metallic and Gold finishes.

Call 01342 302250 for a RAL or special finish chart.

## RAL Colours

Match your room style by selecting from a full rainbow of 188 RAL colours. Use either contrasting colours to create a bold statement or sympathetic colours so your Ancona® blends in to your wall.

## Special Finishes & Bare Metal Lacquer

Choose from colours including metallics, mottled, textured effects as well as a bare metal lacquer, for a Special Finish chart please call our Customer Service team on 01342 302250.

Textured Black Matt

Textured Stone

Mottled Silver

Gun Metal Grey

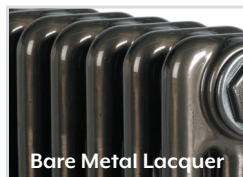

Mottled Copper

Pearl White

Black Sparkle

Bare Metal Lacquer

Please specify your chosen RAL number and colour or special finish at time of order.

## Galvanised Finishes

We have developed a range of truly unique, stunning and “on-trend” finishes in classic Antique Copper, Antique Brass and a more contemporary Satin Nickel. We take individual sections of Ancona®, hand-polish every part of the section and then using the hot-dip galvanising process (similar to chroming) we create the finish. 5 stages in total are needed with a final hand brushing and lacquer. The result is distinctive and hardwearing, with each radiator completely unique due to the amount of hand finishing.

Satin Nickel

Antique Brass

Antique Copper

Please note: galvanised Ancona's are available with welded feet only in set sizes, see pages 144-145

## Helpful notes & advice;

Please call us on 01342 302250 if you need any further information or help with specifying your Ancona®.

Ancona® sections are 45mm wide, therefore the total radiator length is; “no. of Sections x 45mm + 26mm for bushes + valves” (Please note due to manufacturing tolerances widths shown may vary by +/- 2mm). When considering the height of your radiator remember that your mounting option will affect the overall height of your radiator. Made To Order Anconas® are supplied factory assembled up to a maximum of 40 sections. For radiators outside these parameters there is an additional joining charge please consult Customer Services to discuss alternative requirements.

® Ancona is a registered trademark of IRSAP UK Limited

# Ancona® Made to Order shown on pages 18-27

Specify your radiator online; Use our **Online Radiator Builder** to quickly and easily specify your radiator.

Go to our website **theradiatorcompany.co.uk**.

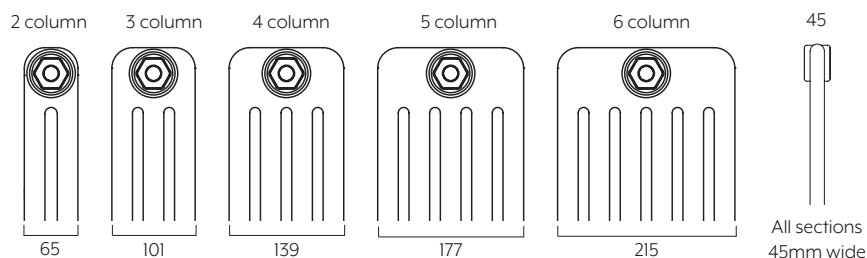

Use these tables to specify your radiator by following these steps;

- 1 Calculate the heat output you need for your room, using our online **BTU (Heat Output) Calculator** or check with your installer, remember you may need more than one radiator to heat your room.
- 2 Use the tables below & right to find the best size to suit your space and heat output you need; if you cannot get the right size & output combination from a 2 column radiator try an alternative height or column (depth) option, see page 138 for more details on how to size your radiator.
- 3 Choose the style of mounting option you want; standard wall brackets are included in the radiator price (universal wall brackets for lacquer finishes). If selecting cast feet or welded feet there is an additional cost, see pricing tables on page 143.
- 4 Choose your colour from a choice of 188 RAL colours and 31 special finishes including bare metal lacquer. For galvanised finishes please see pages 144-145.

All prices and outputs are given per section in the tables below. Price per section includes plugs, bushes, diverter, wall brackets and wall ties.

Alternative mounting options must be selected separately, these will include the air vent and appropriate number of wall ties.

Made To Order Anconas® are supplied factory assembled up to a maximum of 40 sections. For radiators outside these parameters, there is an additional joining charge please consult Customer Services to discuss alternative requirements.

Pipe Centres for all White & Colour Anconas with Cast Feet, Welded Feet or Wall Brackets are;	
Pipe centres left to right = number of sections x 45mm plus 26mm (13mm each) for bushes plus valves. <i>Note due to manufacturing tolerances widths may vary by +/- 2mm.</i>	
Pipe centres from wall (based on adjustable wall ties)	2 Column = 64mm to 74mm 3 Column = 82mm to 92mm 4 Column = 102mm to 112mm 5 Column = 120mm to 130mm 6 Column = 140mm to 150mm

® Ancona is a registered trademark of IRSAP UK Limited

\*Saving based on the value of individual items when bought separately. Order any of our selected valves and matching pipe covers at the same time as your radiator.

# Ancona® Made to Order - Wall Brackets

Once you have chosen your radiator size you can choose any one of our 3 mounting options & specify at time of order (fittings are available to order with a corresponding radiator only).

Standard wall brackets are included in your radiator price. The correct number of brackets and wall ties will be supplied with each order; prices for extra wall brackets and wall ties are available on request, please call **01342 302250**.

Technical & pipe centre information of each mounting option is shown below / right.

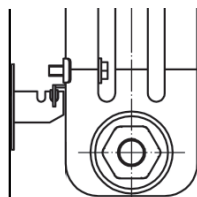

Please note: Anconas® in a bare metal lacquer finish are only available to be mounted with universal wall brackets or welded feet.

\*PPANCOWNB

## Standard wall brackets technical & pipe centre information (suitable for stud walls) (appropriate for all finishes except Bare Metal Lacquer)

Can be positioned at any height (minimum height from floor 100mm); brackets are supplied with raw plugs.

Pipe centres from wall:  
 2 column = 64mm - 74mm  
 3 column = 82mm - 92mm  
 4 column = 102mm - 112mm  
 5 column = 120mm - 130mm  
 6 column = 140mm - 150mm

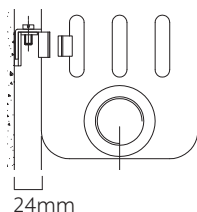

Wall tie; adjustable from 32mm to 42mm

\*PPANCOWNB

## Bare metal lacquer universal wall brackets (suitable for stud walls)

Note: Ancona's with lacquer wall brackets can be positioned at any height (minimum 100mm from floor)

Pipe centres from wall:  
 2 column = 56mm  
 3 column = 74mm  
 4 column = 93mm  
 5 column = 112mm  
 6 column = 131mm

## Build your radiator using our online radiator builder on our new and improved website

It is vital to know the correct heat output you need to keep your room warm, use our **online BTU (heat output) calculator** to get a guide to your requirements which you can then check with your installer.

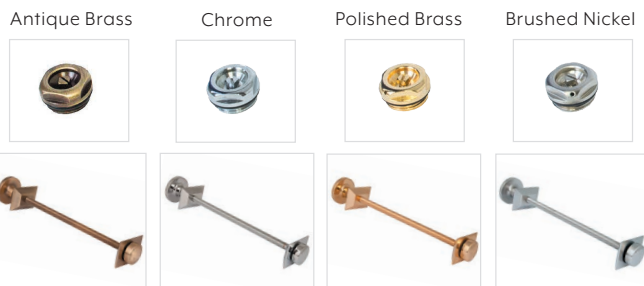

Once you know your outputs use our **online radiator builder** to select the best solution for your room. It will take you through the process quickly and easily and allows you to save your ideas to your own Wish List. Please go to our website **theradiatorcompany.co.uk**

## Optional Solid Brass Wall Ties & Airvents New

These solid brass wall ties provide a stylish finishing touch to any Ancona® radiator; select to match your valves. Available as a kit including matching airvent in Antique Brass, Chrome, Polished Brass and Brushed Nickel.

Please note that these wall ties and airvents are an optional extra and do not come as standard with your Ancona® radiator.

Please specify your finish at time of order.

# Ancona® Made to Order - Floor Mounting Options

Once you have chosen your radiator size you can choose to have your Ancona® floor mounted by selecting either Welded or Cast feet (fittings are available to order with a corresponding radiator only).

**Please note; Welded feet and Cast Feet are an additional cost to your radiator price.**

The correct number of wall ties will be supplied with each order; prices for extra cast feet and wall ties are available on request, please call **01342 302250**.

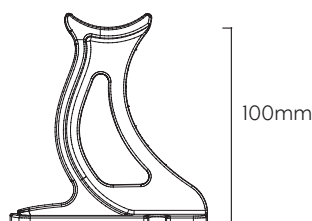

Please specify your preferred floor mounting option & kit number at time of order.

Technical & pipe centre information of each mounting option is shown below.

## Cast feet kit prices

**Note: please remember to add 100mm to the height of the Ancona® section you have chosen if you are using cast feet.**

All prices shown include wooden seat. Please note height (A) does not include wooden seat.

**Please note: Bench seats 1286mm wide and over will be supplied with 4 feet.**

Pipe centres = width of radiator (B) + valves  
Due to manufacturing tolerances widths may vary by +/- 2mm.

\*Saving based on the value of individual items when bought separately. Order any of our selected valves & matching pipe covers at the same time as your radiator.

# Ancona® Curved shown on page 30

High quality Italian design & manufacture

Steel Multi Column; 2, 3 & 4 column options with wall brackets or optional welded feet  
CE/UKCA approved & certified to BS EN442.

White RAL 9016 as standard, 188 RAL colours and 30 Special Finishes

Please call **01342 302250** for a RAL or Special Finish chart

Approximately 6 weeks from receipt of written sign off of technical drawings

Visit our website for further information [theradiatorcompany.co.uk](http://theradiatorcompany.co.uk).

**SAVE £45** WHEN YOU BUY OUR **VINTAGE TRV KIT** WITH ANY ANCONA® ORDER\*  
QUOTING **PROMOV2** AT TIME OF ORDER

For all Vintage TRV finishes

Our Ancona® radiators can be curved to fit bay windows and around columns.

Alternative heights are available on request, please contact us on **01342 302250** if required.

Radiators can be curved using up to 40 sections, minimum 10 sections (450mm).

As with all radiators, it is essential to know how much heat you need to keep your room comfortable, use our online Heat Output Calculator to work out how much heat you will need for your room before you size your radiator.

Curving is a precise process and as such accurate measurements and calculations must be made and checked before production can begin. Since our Ancona® Curved is made on a bespoke basis to your exact requirements, we have created an online tool to help make the process as easy as possible;

To order your curved radiator follow these simple steps;

- 1 Go to our website [theradiatorcompany.co.uk](http://theradiatorcompany.co.uk) and select the 'Curved Ancona®' in the steel multi column section, download or read the specification document which explains how to measure for your curved radiator
- 2 Use our online Curved Radiator Builder by filling in all the sections
- 3 When you have reviewed the technical specification, double-check everything is correct to see how your radiator will fit in your space
- 4 Print the technical specification and sign all pages once you are happy with the details
- 5 Use the signed specification to place your order with your Installer or local merchant

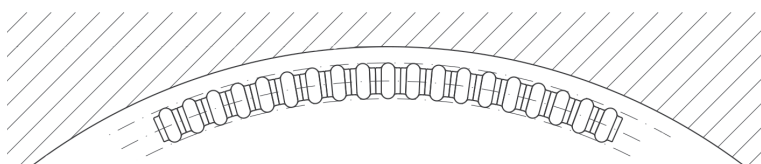

Alternatively, you can complete the Specification Instruction sheet with the dimensions of your bay or column and return it to us via email, fax or post (please see contact details below). However, this will take extra time for us to have drawings made and then sent to you for approval before any order can be placed.

**Please note; once you have signed off your drawings and ordered your curved radiator it cannot be cancelled or returned.**

# Ancona<sup>®</sup> Electric shown on page 31

High quality Italian design & manufacture  
 Steel Multi Column 3 column with wall brackets only  
 Eco Design  
 10 year guarantee on the radiator  
 2 year guarantee on the element

White RAL 9016

**Stock Sizes: 48-72 Hours**

Made to Order Sizes: Up to 5 weeks

The Ancona electric ranges combine the classic Ancona design with the flexibility of a fully controllable electric element. Offering 8 function modes, the Ancona Electric can be set to operate when you wish, on a daily basis, or you can select one of the three pre-set programmes. The Open Window Function detects an open external door or window and will turn the radiator off if it detects that it is allowing heat to escape, saving energy and money.

Please make sure you specify your finish at time of order; Senso, Varenna or Pavia

- Senso - simple and plain, a lightly textured effect creating an understated statement.
- Varenna- a sense of movement created by the interaction of light and shade across the soft lines and gentle curves of the design.
- Pavia - a natural stone effect finish with a strong bold impact.

**Please Note: These radiators are very heavy and will require at least two people to lift and fit.**

# Sectional Stocked Aluminium

All our sectional aluminium is held in stock in the UK. White product can be delivered in 48-72 hours and coloured orders will be finished and delivered in up to 3 weeks. Our most popular sizes are listed in the price tables, for other sizes use our online radiator builder or follow the instructions below to specify your radiator.

## Choose your radiator using our online radiator builder

Once you know your outputs use our **online radiator builder** to select the best solution for your room. It will take you through the process quickly and easily and allows you to save your ideas to your own Wish List. Go to our **NEW** website [theradiatorcompany.co.uk](http://theradiatorcompany.co.uk)

It is vital to know the correct heat output you need to keep your room warm, use our online Heat Output Calculator to get a guide to your requirements which you can then check with your installer.

Once you know your outputs you can also use the brochure to specify your radiator by following these steps (or call our Customer Services team on 01342 302250 who will help you size your radiator)

Note the space you have in mind for the radiator(s) you need; vertical or horizontal, length, height & depth

- Select a column option and height that fits your space; Calculate the number of Sections you need by dividing the required BTU (Watt) output with the output per section; e.g  $4811 \text{ BTUs} \div 420 = 11.45$ , (we always suggest rounding up, as it is better to have too much output, than too little) therefore 12 sections based on Vip 590
- If using that section size does work in the space available, try a different height or alternative aluminium profile
- Once you have calculated the best number and size of section, select your colour. Our Aluminium Radiators are available in a selection of the top 23 most popular colours from the RAL range and 30 Special Finishes (shown on pages 65 & 197). Please specify your RAL colour or special finish at time of order. White RAL 9010 is our standard for the Vip, Oscar, Vox and Mix
- Work out the price of your radiator by multiplying the section price by the total number of sections e.g Vip 590 high, 12 sections in RAL 3000 - Flame Red =  $\pounds 76.72 \times 12 = \pounds 920.64$  (inc VAT)
- Place your order by using the Sectional Model Code x No. of Sections needed and noting the colour number and name selected; e.g VIP59 X12 in RAL 3000
- If you have chosen a colour make sure you list the colour number and name

All prices and outputs are given per section in the tables on pages 176-185. Price per section includes plugs, bushes and diverter.

End Panels for the Vip & Oscar must be specified at time of order, please see page 177 for more information.

## Aluminium Colours

All our Sectional Aluminium radiators are available in a selection of the top 23 most popular colours from the RAL range as well as 30 exclusive special finishes. These radiators provide both the efficiencies of aluminium and a stunning finish.

Available in up to 3 weeks. Please call **01342 302250** for a RAL or Special Finish chart

For orders of more than 10 radiators in colour or special finishes please allow an extra 10 working days for delivery.

### New Colour Coordination Service

Available for all sectional aluminium, see product pages 6-7 for full details including process & lead times.

# Aluminium Accessories

## Hanging Bars & Pegs

These towel bars and pegs are designed to fit all of our sectional aluminium ranges except the Ottimo. Ideal for providing additional hanging space to air towels or hang bathrobes. **Available from stock in 48-72 hours.**

23 RAL colours available for your Aluminium radiator to be painted in see page 197 for full range

# Cast Iron

Our cast iron range includes a choice of ornate and plain schoolhouse designs. Available in a choice of finishes, including painted, polished and burnished, cast iron radiators can be specified by section so you can choose the right size for your space.

**SAVE £45**  
WHEN YOU BUY OUR **VINTAGE TRV KIT** WITH ANY CAST IRON ORDER\*  
PLEASE QUOTE **PROMOV2** AT TIME OF ORDER

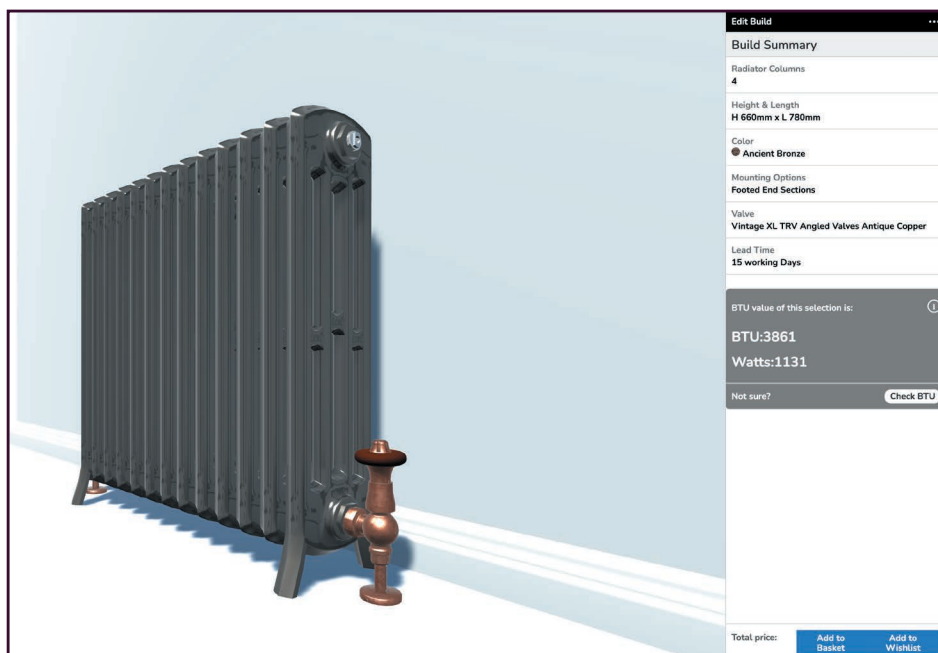

\*Saving based on the value of individual items when bought separately. Order any of our selected valves and matching pipe covers at the same time as your radiator.

## Choose your radiator using our NEW online radiator builder

Once you know your outputs use our **online radiator builder** to select the best solution for your room. It will take you through the process quickly and easily and allows you to save your ideas to your own Wish List.

Go to our website [theradiatorcompany.co.uk](http://theradiatorcompany.co.uk)

It is vital to know the correct heat output you need to keep your room warm, use our online Heat Output Calculator to get a guide to your requirements which you can then check with your installer.

Once you know your outputs you can also use the brochure to specify your radiator by following these steps (or call our Customer Services team on 01342 302250 who will help you size your radiator)

- Note the space you have in mind for the radiator(s) you need; vertical or horizontal, length, height & depth
- Select a column option and height that fits your space; Calculate the number of sections you need by dividing the required BTU (Watt) output with the output per section; e.g 1913 BTUs divided by 328 = 6 sections, based on 4 column, 580mm high sections (always round up to the next whole number of sections)
- If using that section size doesn't work in the space available, try a different column option or if possible a different height
- Once you have calculated the best number and size of section, select the best mounting option and kit; footed end section, cast feet or wall brackets. For the Telford and Ledbury you have the option of footed ends (selected sizes on Telford), cast feet or wall brackets. Aston, Trieste, Bohemia and Linton ranges are only available with footed ends.
- Your cast iron radiator can be painted in a selection of the most popular colours from the RAL range, special finishes, in a polished or burnished finished (Trieste) or a lacquered finish. Please specify your chosen colour at time of order. Please note: as a result of the casting process, cast iron radiators have a rough surface finish with small imperfections which will show after the painting process.
- Work out the price of your radiator; e.g Telford 4 column, 580 high, 6 section, RAL 7044 Silk Grey = £104.64 x 6 = £627.84 + Cast feet Kit (2) = £95.26 - Total = £723.10
- Place your order with your local Merchant using the sectional model code x No. of sections needed, noting the mounting option and the name and number of colour you have chosen; e.g TELF4C58 x 6 sections, RAL 7044 Silk Grey with cast feet
- If you have chosen a colour make sure you list the colour number and name

All prices and outputs are given per section in the tables on pages 189-195. Price per section includes plugs, bushes and diverter. Mounting options must be selected separately, these will include the air vent and appropriate number of wall ties.

# Aston shown on pages 78-79 New Sizes

Cast Iron; 2, 3, 4 & 6 column, footed ends as standard  
CE/UKCA approved & certified to BS EN442.

24 RAL colours (shown on page 197) and a Polished finish.  
Please call **01342 302250** for a RAL chart

24 RAL colours: up to 6 weeks  
Polished: up to 6 weeks  
Please add 10 working days for orders of more than 10 radiators

**SAVE £45** WHEN YOU BUY OUR **VINTAGE TRV KIT** WITH ANY CAST IRON ORDER\*  
QUOTING **PROMOV2** AT TIME OF ORDER

## Antique Brass Finish

Cast iron is a classic favourite, loved for its traditional qualities and style. Part of the charm of cast iron is the inherent imperfections and idiosyncrasies in the metal produced by the traditional production methods. Newly cast product retains the texture and individuality of radiators cast over 100 years ago, but in order to create an aged appearance to the finish, they go through a number of stages ending with a hand-finished application. The appeal of an antique product is its unique patina developed over time, each radiator will differ, and so to reproduce that effect our Antique finishes will have a varying depth of light and dark across the radiator.

After cleaning, priming and the application of the brass effect powder coat each radiator has an antique rub applied by hand. This is then rubbed down and baked to fix the protective surface. The level and amount of light and dark differ from section to section as the combination of texture, casting marks and the random nature of hand finishing produces a striking and unique antiqued finish.

Casting marks and textures retain the antique topcoat, highlighting the natural surface texture of the cast metal

Darker areas occur when hard to access areas and mould patterns retain more of the antique rub, creating an individual final finish.

### Antique Brass (see page 193 for more details)

Cast iron is a classic favourite, loved for its traditional qualities and style. Part of the charm of cast iron is the inherent imperfections and idiosyncrasies in the metal produced by the traditional production methods. Newly cast product retains the texture and individuality of radiators cast over 100 years ago, but in order to create an aged appearance to the finish, they go through a number of stages ending with a hand-finished application. The appeal of an antique product is its unique patina developed over time, each radiator will differ and so to reproduce that effect our Antique finishes will have a varying depth of light and dark across the radiator. After cleaning, priming and the application of the brass effect powder coat each radiator has an antique rub applied by hand. This is then rubbed down and baked to fix the protective surface. The level and amount of light and dark differ from section to section as the combination of texture, casting marks and the random nature of hand finishing produces a striking and unique antiqued finish.

\*Saving based on the value of individual items when bought separately. Order any of our selected valves & matching pipe covers at the same time as your radiator.

# Colour Coordination New

We understand that many interior designs can be enhanced with carefully applied colour coordination or contrasts to create a standout feature. Today we have a huge choice of brands and exciting colour palettes and tones to choose from for our walls and woodwork, providing the opportunity to create truly stunning rooms. If you are looking to create a uniquely personal look using colours from either popular or premium paint brands, we can take your chosen colour and create a highly durable powder coat finish that will allow your radiator to blend in with your wall colour, or stand out if you want to make a statement!

Sitar radiator colour coordinated to Farrow & Ball® paint Citron 74

Making sure that you get something that reflects the effort you have taken in choosing your colours is important. Once we know the radiators you are interested in and the make, name and code of your chosen colour, we can supply a quote and an estimate of delivery times. **Please note that sometimes we will require a physical sample to colour match from.**

The first step is to order a colour sample, for which a small charge of £120 Inc VAT will apply (this will be deducted from the full order when placed). We will then mix a batch of powder and prepare a sample for you to check and approve. Once you are happy, you can proceed to order your radiators.

To achieve your desired colour and allow for the sample and final production, we have an extension on our standard delivery times to allow for the process, this could be up to 6 weeks for the sample, and once the sample has been approved, up to 8 weeks for the completion of your radiator order. Timescales will be determined by the size and quantity of radiators you require, we will be able to provide a more accurate estimation when we quote for your project.

Please see page 7 for our step by step guide and further information.

The colour coordination icon indicates which products are available for this service and are shown on the relevant technical pages. Please call us on **01342 302250** or visit **theradiatorcompany.co.uk** for more information.

The Poppy Electric range is available in white & chrome and supplied with a fully controllable electric element. Offering 8 function modes, they can be set to operate when you wish, on a daily basis or you can select one of the three pre-set programmes. The Open Window function detects an open external door or window and will turn the radiator off if it detects that it is allowing heat to escape, saving energy and money.

- Boost mode (2h at max power)
- Timer mode (configure different temperature values for each hour and day of the week),
- Comfort mode (desired user temperature),
- Night mode, Pilot-wire mode, Antifreeze mode, Holiday mode
- Adaptive Start Control, open windows, ON/OFF button and a security lock for children.

The Lupin Electric range is available in white & chrome and supplied with a fully controllable electric element. Offering 8 function modes, they can be set to operate when you wish, on a daily basis or you can select one of the three pre-set programme. The Open Window function detects an open external door or window and will turn the radiator off if it detects that it is allowing heat to escape, saving energy and money.

- Boost mode (2h at max power)
- Timer mode (configure different temperatures value for each hour and day of the week),
- Comfort mode (desired user temperature),
- Night mode, Pilot-wire mode, Antifreeze mode, Holiday mode
- Adaptive Start Control, open windows, ON/OFF button and a security lock for children.

## Convactor Radiators

Our convactor ranges, Trench and Mini, are still available to order. Full details can be found on our website, [theradiatorcompany.co.uk](http://theradiatorcompany.co.uk).

# Helpful Advice

## Made to Order

We pride ourselves on having the widest range of sizes, options, colours, and accessories so that you have literally thousands of options to choose from. This means that you can have almost any radiator made to order so that it perfectly suits the space you have available, your interior design and also match your heat requirements.

## Colour Options

Many of our designs are available in a large selection of RAL colours (188 internationally recognised paint colours) and Special Finishes. If you would like a copy of our RAL or Special Finish chart please contact us on **01342 302250**. Please note that due to the printing process and manufacturing tolerances, the colour (including white) of a finished radiator may vary slightly from the colours represented in the brochure and from one colour group to another, as well as from our Special Finish & RAL charts. It should also be noted that if the same type of radiators are ordered and produced, they may also differ in finished colour from any previously ordered.

## Stock

To provide the best possible service, we hold the most popular sizes of white and chrome models in stock. So if you need quick delivery, look in the technical section for models listed with **bold** prices; these can usually be delivered within 48-72 hours.

## How much heat?

We always recommend you choose radiators with a higher output than required, as you can always turn them down & have the reassurance of additional heat in really cold spells.

## How is heat output measured?

There are two recognised measurements for heat output; BTU's (British Thermal Unit) and Watts. Within this brochure you will find both listed in the technical section by each radiator.

## Delta T's

The heat output of a radiator is established using a calculation called a delta T ( $\Delta T$ ), based on the desired room temperature of 20°C and boiler flow and return temperatures; European standards use delta T50°C as a measurement, this is based on a boiler flow temperature of 80°C and a return of 60°C ( $80^\circ\text{C} + 60^\circ\text{C} \div 2 - 20^\circ\text{C} = 50^\circ\text{C}$ ). Some systems using renewable energy sources may have different flow and returns and therefore different delta T's (e.g.  $60^\circ\text{C}/40^\circ\text{C} = \text{delta T}30^\circ\text{C}$ ). If you require outputs based on alternative delta's please contact us on **01342 302250**.

## BS EN442

Our radiators are produced & outputs measured according to BS EN442. This standard uses delta T50 to provide a consistent and comparative output measurement. Some installers may still use the old delta T60 as a measure of output, to convert use the following correction factors;  $\Delta T50$  to  $\Delta T60$  multiply by 1.267,  $\Delta T60$  to  $\Delta T50$  multiply by 0.781.

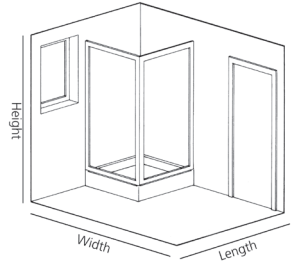

## How can I find out what heat outputs I need?

Your installer should be able to confirm the exact requirements for each of your rooms, but you can also visit our website ([theradiatorcompany.co.uk](http://theradiatorcompany.co.uk)) and use our online heat calculator or use the following simple calculation as a guide;

1. Find the volume of your room in cubic feet = height x width x length (To convert cubic metres into cubic feet multiply the total figure by 35.31).
2. Multiply the volume by 6 to find the BTU requirement. If you need to know the Watts equivalent, divide your BTU by 3.412.

For example:

A bathroom 6'x8' with 8' ceilings = a volume of 384 cubic feet multiply by 6 = 2304 Btu's

You may need more than 1 radiator in order to ensure an even distribution of heat in a large room, if so divide the required output by the total number of radiators you could sensibly place in the room.

e.g. a lounge 14' x 18' x 8' ceilings = 12096 Btu's.

Two radiators would require an output of = 6048 BTU's each, 3 radiators = 4032 BTU's each

## Do different designs affect output?

By altering the size, shape or number of tubes or columns in a radiator you can adjust the output achieved, as this adds or subtracts surface area, the main contributor to heat output. For example, the multiple columns of our Ancona® range provide huge flexibility in achieving the right output in a limited space.

## Single or double radiators

Using models with additional rows of tubes or multiple columns maximises heat output within the same wall space.

Our Water Lily design comes in single or double versions, as an example of comparative heat outputs:

*Water Lily single 2020mm x 312mm = 2238 BTU's*

*Water Lily double 2020mm x 312mm = 3180 BTU's*

## Horizontal or Vertical;

Many of our designs are available in horizontal or vertical options which means you can maximise the use of ceiling heights and long low spaces, without losing output.

# How to order

## Order your radiator in seven easy steps

- 1. Confirm your heat output requirements for the room where you need the radiator or towel rail;** this ensures the radiators you choose will deliver the heat output you need. Use the BTU (heat output calculator) on our website [theradiatorcompany.co.uk](http://theradiatorcompany.co.uk) then decide how many radiators you need for the relevant room; discuss this and positions with your installer if needed.
- 2. Choose your design;** our range has everything from traditional cast iron to modern feature radiators, even an environmentally friendly aluminium range, with an extensive choice of sizes, colours & outputs.
- 3. Select a size that matches the heat output requirement;** outputs are shown in our technical section & will help you & your installer to find the best match for your needs.
- 4. Choose the colour you want;** with over 200 colours & special finishes you are able to match your colour scheme or introduce an accent colour to create a striking feature.
- 5. Find a valve to complete the look;** Choose from our wide selection of valves and add any accessories that complement your choice.
- 6. Order from your nearest showroom or merchant** to find your nearest branch call us on **01342 302250** or visit [theradiatorcompany.co.uk](http://theradiatorcompany.co.uk)
- 7. Order online from our website [theradiatorcompany.co.uk](http://theradiatorcompany.co.uk)**

*For help in choosing a sectional radiator (modular radiators that can be built by section to achieve a size and/or output requirement), please visit our website to use one of our online radiator builders for Ancona® Steel Multi Column, Cast Iron and Sectional Aluminium.*

## Our Product Range

- All our radiators are produced and outputs measured in accordance with BS EN442 and as such are CE/UKCA approved.
- Radiators are supplied with BOE connections as standard unless otherwise stated. B2 underneath connections can be supplied with selected models. Full technical details can be found from pages 128 to 216 and all details are in accordance with our factory or manufacturing partner's terms of reference at the time of going to print.
- Due to the excessively corrosive nature of chlorine, we do not recommend that radiators & towel rails are placed in swimming pool environments. In addition, radiators should not be located in areas that have long term exposure to high levels of moisture without suitable ventilation.
- When commissioning any radiator (including aluminium) on an indirect/closed system, we recommend using a suitable mixed metal inhibitor in suitable quantities to protect against scale & corrosion. We can provide the water content of our radiators if required to help the installer calculate this if needed.

## Electric / Dual Fuel

Selected towel rails can be converted to work as dual fuel models. An element and T-piece are needed to adapt the towel rail; your installer will need to be aware if you wish to do this in order to adjust pipe centres accordingly. See pages 116 - 117 for our range of elements. If a towel rail is suitable for dual fuel, it will be noted on the product technical page.

## Pipe Centres

We endeavour to ensure all pipe centres are correct, however manufacturing tolerances must be considered. Therefore we strongly recommend that pipe work is not altered or adjusted until your new radiator or towel rail is delivered. The Radiator Company will not accept any responsibility for claims resulting from incorrect pipe centres.

## Delta T's

The heat output of a radiator is established using a calculation called a delta T ( $\Delta T$ ), based on a desired room temperature of 20°C and boiler flow & return temperatures; European standards use delta T50°C as a measurement, this is based on a boiler flow temperature of 80°C and a return of 60°C (80°C + 60°C ÷ 2 - 20°C=50°C). Some systems using renewable energy sources may have different flow and returns and therefore different delta T's (e.g 60°C/40°C = delta T30°C). If you require outputs based on alternative delta's please contact us on **01342 302250**.

## Delivery

Please note that many of our factories close for 2-4 weeks during the holiday periods of July/August and December. This may extend the delivery period quoted for non stock made to order items ordered during July/August & December/January. We will confirm the expected delivery date on our order acknowledgement at the time of order. Unfortunately, delivery to Scotland / Offshore Islands may take longer due to the distances involved. Deliveries will be made to the nearest hard standing area.

## Systems

All radiators and towel rails featured in this brochure are suitable for indirect/closed systems that comply with 'BS5449, section 1 forced circulation hot water systems'. Systems running with low pressures (under 1 Bar), microbore pipework or modern boilers with modulating pumps, may experience flow and heating issues if not accounted for in the system design which could result in radiators not heating fully or noisy pipework.

Direct heating systems use your hot water supply to heat a radiator; usually this will occur in a bathroom. If you have any radiators or towel rails linked to a direct system they should be made from either stainless steel or brass to avoid rusting and contaminating the hot water supply. However it should be noted that these radiators are not suitable for Direct systems fitted with a water softener.

## Powder coat finishes and Painted cast iron

It should be noted that due to the production process colours can vary by +/- 5 to 10% from samples provided and between radiators ordered in the same colour at different times.

All painted cast iron radiators will be checked and tested prior to despatch. Care must be taken when handling and joining painted cast iron radiators on-site to avoid damaging the finish. Cast iron radiators will be supplied with a small bottle of touch up paint in case of damage to the finish during installation, however, it should be noted that this may vary slightly from the standard powder coat finish. As a result of the casting process, cast iron radiators have a rough surface finish with small imperfections which will show after the painting process.
